Technology-driven visco memory foam & medical support models
providing exceptional microclimate stability and sleep performance.

VISCO MEMORY TECHNOLOGY

PREMIUM SLEEP COLLECTION

AURLINE VISCO PILLOW

Thanks to its special design, it supports the neck area and prevents it from being in the cavity, thus reducing possible neck pain and helping you sleep comfortably. Visco elastic (memory sponge) technology, which acts according to heat and pressure, supports neck and shoulder muscles and minimizes the strain on nerve cells. By regulating blood circulation with the pressure applied to the face during sleep, it reduces wrinkles and morning puffiness, and contributes to a healthy and fresh skin.
